Nothing shows how little China respects us like the honeypots they send us. There's like 90 billion people in China and they know they can send our politicians a slump buster. Disheartening.

We are about to witness Trump end the globalist siege. With his back to the wall and years of preparation for this one moment in time, he will go for broke, proverbial bayonet in hand, not unloading until he sees the whites in their eyes.

3500 guards? That's adorable. There will in low number be a few hundred thousand. In high numbers, 2-3 million easily. Imagine the scare

This is Captain Crunch, Crunch for CRUNCH TIME, presenting a set of optional marching orders to WIN FOR TRUMP Jan 6 (Implement this until you hear otherwise or someone else puts up a plan):

1. Assemble at the Capital building 100,000 strong patriots (if 100 million voted trump that one out of every 1000 who voted for trump). NO GUNS. READ ON.
2. When the first of the 5 states certifies a Biden slate of electors, (RE: the 5 states in which Trump was far ahead and they stopped counting on election night, engaged Dominion vote allocation software, then next morning Biden was ahead) The 100k citizens will battering ram down the doors and arrest those legislators who certified Biden slate (just escorted out of the room to a locked room until after the voting, let em cry about it later on CNN). This lets the other 4 know we mean business.
3. Wait for the other 4 states to try to certify a Biden slate, if a state doesn't show clear intent to object to the Biden electors then the legislator trying to certify Biden electors get arrested on the spot, so the next in line for that state legislature can have a chance to do the right thing and object.
4. After Biden electors thrown out by that "now-honest" legislature Trumps electors will be cast by that legislature and repeat these steps for each of the remaining 4 states that stopped counting election night.
5. Trump wins.
6. All congress people who were locked in the back room are freed like a cage of rabid wolverines. Unlock the cage and RUUUUN!! haha no but seriously [redacted] except for one

the remaining 4 states that stopped counting election night.

5. Trump wins.
6. All congress people who were locked in the back room are freed like a cage of rabid wolverines. Unlock the cage and RUUUUN!! haha no but seriously its over at that point, except for one thing...
7. A real investigation AND arrests into the 2020 election fraud.

footnotes -

- remain in small spread out groups in case of missile attack or bio or chem weapon attack on Patriots by the Communists.
- No weapons needed. 100k strong patriots is plenty to do this.
- bring zip ties
- you can wear a steel chest plate in case communists start shooting
- we may need strong patriots to carry these reps off the floor into a locked room.
- Police will stand down.
- Military will stand down.
- antifa and blm may be around the fringes of the event, and thats ok, just ignore them and defend against them.
- Patriots do not fire first, but if anyone fires on the Patriots then go Scortched-Earth Crusade.

I thought i could larp but you win bigly. By the way get a “steel chest plate” and see how much that protects you “in case communists start shooting”. Then shoot that plate from distance to see what happens ~~to the bullet fragments~~ on impact

Traveler Details

Before the 6th of January, you HAVE to know what the enemy is going to do, what's going to happen to the Trump/Constitution supporters. The Yellow Vests in France already tried to take the institutions 2 years ago and failed miserably. Here's why:

1) Spread in the country

A lot of French demonstrated in their own town. They wanted to show that all the country was supporting the movement. It was a mistake, too bad for them: the ONLY WAY to overthrow a national swamp is to go to the capital and to focus yourselves on the political institutions. There is no other way.

If you want Trump to be President the 6th of January, you probably have to be ONE MILLION patriots in Washington DC, to outnumber the enemy.

Take care: probably they will try you to organize other meetings and demonstrations across the country, they will say it's too dangerous to go to DC, they will cancel the flights, they will covid you, etc. You know them. They will give you a lot of reasons to stay home. DON'T! GO TO WASHINGTON DC.

2) Beheading

During the night and in the first hours of the day, French police and secret services arrested 1,000-2,000 individuals without any reason in Paris and its suburbs (everywhere, in the trains, in the hotels, when they were walking outside, etc.), to lock them up just for 24 hours. The individuals were targeted. Police knew who were the leaders or the potential leaders, police knew who was really dangerous.

After that the crowd was beheaded and didn't know what to do nor where to go. Take care: your enemy will act a few hours before the big day and if you can't do shit about it, you are screwed. The 6th begins a few hours (a few days?) before the 6th. If you're a leader or an important group of patriots, you'll have to fight BEFORE what you expect.

3) Roadblocks

French police erected roadblocks far away of the "Elysée" (the WH in France) to prevent demonstrators to come too close of President Macron's residence. Police won't let you go where you need to be. (IMHO the only place to be is in Congress, where they're going to elect the President, where the fucking cunt politicians will meet. Not the Supreme Court, not the WH, nor any symbolical place.) They will make you walk far away of the place to be. They will try to redirect you to other symbolical place (see further, 5).

There will be a lot of roadblocks to prevent you to cross the Rubicon (yes, one more Rubicon). As you're beheaded and your leaders are out, they'll put a few guy in front of the crowd to make you walk in a peaceful citytrip. Be careful, in a crowd humans follow humans.

Take care and think: if you see a roadblock, the way is there. Be the strong guy. Don't be a sheep, don't follow the others silently. You don't fucking have time to continue walking, you're not here to visit DC. Go through the roadblock. AT ALL COSTS.

4) Symbolical goals

December 8th 2018 the Yellow Vests took the "Arc de Triomphe", a symbolical place in Paris. They were proud of themselves, but what did it changed? "Rien", nothing. Macron was still President by the end of the day. He saved his ass because the Antifas cunts led the Yellow Vests to attack the "Arc de Triomphe" and not the "Elysée".

To distract you from your attempt, your enemies will offer you symbolical goals to reach... But those won't give you Trump elected. Take care: secret services or dumb people will try you to lose energy on useless goals.

Focus on your only goal: to have Donald Trump President Elect by the end of the day. You have to (1) prevent the Democrats to arrive in Congress, (2) besiege the fucking swamp until Trump elected, (3) prevent the swamp to get out if Trump isn't elected, (4) and you know what to do with them if Biden is elected. LOSERS DON'T MAKE HISTORY.

If you can't reach Congress (and block all its exits, included the secret ones), you will lose.

5) Isolation and bad communication

With the roadblocks, French police had converted Paris in a labyrinth. There was a lot of groups lost in the streets and they were unable to reach each other. It was literally impossible for them to meet the other groups. Furthermore French television was broadcasting images of small groups to say to its audience: "look, they're not a lot, on the contrary, the citizens support Macron".

Take care: they will try to isolate you in many ways. Probably you won't be able to communicate with your phones or to use Internet. And the media will tell the world you're just a few thousands. If you want to win, you'll need to help the pedes blocked by the police. If you want to win you need ONE MILLION individuals around the Congress.

6) There's only ONE chance.

The Yellow Vests lost because they failed in their biggest attempt, the December 8th 2018. After that one they were less people in the streets on the next Saturdays. Never the Yellow Vests have been as strong as they were the 8th of December, nor could they surprise the powerful guys anymore. It was the begin of the end.

YOU WON'T HAVE ANY BIGGEST OPPORTUNITY AS THIS ONE. Be there in Washington DC. Spread the word around you: everybody in DC the 6th of January. Phone your friends, talk about it. Once in your life, take a few days off. America and the World need you in DC. After the 6th it will be to late.

Remember. You're in DC just for A FEW HOURS. Do it, finish it in a FEW HOURS AT ALL COSTS. If you want Trump to be President, you have to succeed the 6th. You won't have any other try.

And don't forget this: you have something French doesn't have anymore. Guns. They will help. By a lot.

Before the 6th of January, you HAVE to know what the enemy is going to do, what's going to happen to the Trump/Constitution supporters. The Yellow Vests in France already tried to take the institutions 2 years ago and failed miserably. Here's why:

1) Spread in the country

A lot of French demonstrated in their own town. They wanted to show that all the country was supporting the movement. It was a mistake, too bad for them: the ONLY WAY to overthrow a national swamp is to go to the capital and to focus yourselves on the political institutions. There is no other way.

If you want Trump to be President the 6th of January, you probably have to be ONE MILLION patriots in Washington DC, to outnumber the enemy.

Take care: probably they will try you to organize other meetings and demonstrations across the country, they will say it's too dangerous to go to DC, they will cancel the flights, they will covid you, etc. You know them. They will give you a lot of reasons to stay home. DON'T! GO TO WASHINGTON DC.

2) Beheading

During the night and in the first hours of the day, French police and secret services arrested 1,000-2,000 individuals without any reason in Paris and its suburbs (everywhere, in the trains, in the hotels, when they were walking outside, etc.), to lock them up just for 24 hours. The individuals were targeted. Police knew who were the leaders or the potential leaders, police knew who was really dangerous.

After that the crowd was beheaded and didn't know what to do nor where to go. Take care: your enemy will act a few hours before the big day and if you can't do shit about it, you are screwed. The 6th begins a few hours (a few days?) before the 6th. If you're a leader or an important group of patriots, you'll have to fight BEFORE what you expect.

3) Roadblocks

French police erected roadblocks far away of the "Elysée" (the WH in France) to prevent demonstrators to come too close of President Macron's residence. Police won't let you go where you need to be. (IMHO the only place to be is in Congress, where they're going to elect the President, where the fucking cunt politicians will meet. Not the Supreme Court, not the WH, nor any symbolical place.) They will make you walk far away of the place to be. They will try to redirect you to other symbolical place (see further, 5).

There will be a lot of roadblocks to prevent you to cross the Rubicon (yes, one more Rubicon). As you're beheaded and your leaders are out, they'll put a few guy in front of the crowd to make you walk in a peaceful citytrip. Be careful, in a crowd humans follow humans.

Take care and think: if you see a roadblock, the way is there. Be the strong guy. Don't be a sheep, don't follow the others silently. You don't fucking have time to continue walking, you're not here to visit DC. Go through the roadblock. AT ALL COSTS.

4) Symbolical goals

December 8th 2018 the Yellow Vests took the "Arc de Triomphe", a symbolical place in Paris. They were proud of themselves, but what did it changed? "Rien", nothing. Macron was still President by the end of the day. He saved his ass because the Antifas cunts led the Yellow Vests to attack the "Arc de Triomphe" and not the "Elysée".

To distract you from your attempt, your enemies will offer you symbolical goals to reach... But those won't give you Trump elected. Take care: secret services or dumb people will try you to lose energy on useless goals.

Focus on your only goal: to have Donald Trump President Elect by the end of the day. You have to (1) prevent the Democrats to arrive in Congress, (2) besiege the fucking swamp until Trump elected, (3) prevent the swamp to get out if Trump isn't elected, (4) and you know what to do with them if Biden is elected. LOSERS DON'T MAKE HISTORY.

If you can't reach Congress (and block all its exits, included the secret ones), you will lose.

5) Isolation and bad communication

With the roadblocks, French police had converted Paris in a labyrinth. There was a lot of groups lost in the streets and they were unable to reach each other. It was literally impossible for them to meet the other groups. Furthermore French television was broadcasting images of small groups to say to its audience: "look, they're not a lot, on the contrary, the citizens support Macron".

Take care: they will try to isolate you in many ways. Probably you won't be able to communicate with your phones or to use Internet. And the media will tell the world you're just a few thousands. If you want to win, you'll need to help the pedes blocked by the police. If you want to win you need ONE MILLION individuals around the Congress.

6) There's only ONE chance.

The Yellow Vests lost because they failed in their biggest attempt, the December 8th 2018. After that one they were less people in the streets on the next Saturdays. Never the Yellow Vests have been as strong as they were the 8th of December, nor could they surprise the powerful guys anymore. It was the begin of the end.

YOU WON'T HAVE ANY BIGGEST OPPORTUNITY AS THIS ONE. Be there in Washington DC. Spread the word around you: everybody in DC the 6th of January. Phone your friends, talk about it. Once in your life, take a few days off. America and the World need you in DC. After the 6th it will be to late.

Remember. You're in DC just for A FEW HOURS. Do it, finish it in a FEW HOURS AT ALL COSTS. If you want Trump to be President, you have to succeed the 6th. You won't have any other try.

And don't forget this: you have something French doesn't have anymore. Guns. They will help. By a lot.

If you are planning to attend peaceful protests in DC on the 6th, I recommend wearing a body camera.
The more video angles of that day the better.

The top comment in that thread (now deleted) said patriots were anxiously waiting to hang or gun down congress if they defy the constitution.

I don't condone any this and i find it disturbing. I'm only saying this community needs to take a hard look at itself if it believes the views of those who caused violence aren't a significant part of commenters and lurkers on this site.

But I think that being there was the best place for me. Not because I feel guilty, or because I feel I am a danger to society. Because the conversations that took place between us patriots and some of the other inmates was worth the stay. The chants of USA down the entire holding cell block were insane in the stainless steel cells. I think the count was between 53 and 70 patriots in there? Mostly curfew violations. A couple weapon charges. I'm still getting news as to what has happened in the last 24 hours. We redpilled some people between last night and this morning though, and the conversations were not only productive, but completely and totally respectful. It was a beautiful thing to see because some of the people from around here had some real animosty at the start. We are getting our message through, and people are proud of us for speaking it. RESPECTFULLY!

The cops however, were complete assholes last night. They swarmed me as I was walking back to my hotel and despite my complete respect and compliance they booked me and charged me with a prohibited weapon (a stinger whip defense tool) and a curfew violation. Others had similar charges, but most were rounded up at the Capitol so they had a trespass charge added as well. The DC police processed me through 2d station because I had a weapon charge and took me to the courthouse where I was until just a few hours ago. They held most of us until about about 7 this afternoon in a roach infested hell hole. And they let us out penniless, without phones, or jackets or shoelaces in a city that none of us knew. They told us to go to D5 station to get our belongings, and I asked the C/O to make sure my stuff was there because I was processed through D2. Ill save you the story because I am sure you can assume that I was indeed right in my assumption that my belongings were at D2. Tonight some patriots came frough for other patriots, and between all of us, we got home or to our hotels tonight, even though though they took our phones, our wallets and managed to make us run up a 250 dollar cab bill all said and done.. I appreciate my brothers that came through tonight, my stuff was farthest away. And I appreciate my hotel manager not only being lenient for my late departure. But for comping my entire bill without even telling me about it. And the lady in the lobby for caring enough to pay for my room for another night when she overheard my story and asked where I was sleeping tonight. I have never felt so fully protected by the armor of God, that is all I can say. Tonight was a crazy night; only a bit less crazy than last night, which was indeed wild. When I flew out here I was stretching it and I knew it. I didn't expect to end up in jail, miss my flight home... No I don't need help, please dont ask. Somehow, and it sincerely boggles the hell out of me. I checked my bank account tonight and there was 600 dollars more there than when I last looked, and I cant say how.. It let me pull it out of the ATM though and I did because I am well and truly stumped.. i thought I was going to be making it home by the hair on my chin, but now I am actually thinking about just taking a nice slow drive home in my rental van and seeing whatever sites I happen to be close by. I havent visited my mom's grave in 22 years, and one of the reasons I regretted flying out was I wouldn't get to go drop some flowers by. I think I'm going to now, and to see the country too. I could use a good drive to clear my head... Anyway I wanted to thank everyone who came out. We made history, and they are making us out to be domestic terrorists. I guess there was a news van outside my house this afternoon because why not doxx us patriots. What they had to say about me I am not sure, but I have pictures of the van. All I can say is that I am proud to have my name in the history books for a cause that I believe in. I'll die on a pile of hot brass before I see this country burn, and that is still the last box. We were peaceful, at least I was and I, like Trump, condemn the actions of those that werent. We should not have breached the Capitol, we should have let things play out. And I'm hearing rumors that patriots were indeed mostly peaceful. That it was Antifa, and others who were instigating. I know we were complely peaceful despite instigation by the police. These people are televising my fucking house, probably trying to make me out as some sort of terrorist for a curfew violation. But the good news is that I can tell from the outpouring of support that I got tonight, even from people who may have Liked Trump or not that we have support. I dont know about you guys, but I'm holding out that Trump still has an ace up his sleeve. I certainly don't want to discuss the only alternative here. They tried to boot me out of DC, but Ill be back another day. Hopefully it will just be to see the monuments next time. I hope to see you all too, what a wild ride!!!!

Yes. It was an admittedly shameful post. It was a spectacle. I was treated fairly. Mixed feelings about the whole situation. Errr. That's all I have to say about that(Forrest Gump voice) I posted it when congress reconvened at mid nite to certify the Electoral Votes. You can probably imagine the tone of the post.

Okey doke, pedes, here's the scoop. I live almost on top of a metro not far from DC (Crystal City) & there are things to keep in mind. The *entire* metro system is underused significantly due to the COVID hoax; most office workers are non-existent. FAR MORE homeless sleeping/riding the lines for warmth & plenty of gangs of "underprivileged inner city youth" running all around. Far more than usual. The stations are manned by "underprivileged inner city adults" who give 0.00 fucks about anything; BTW you're allowed to hop the turnstile if you have enough melanin.

Basically all the angry black people are taking it out on the suburbs. Apologies to pedes who do NOT fit this stereotype but I'm sick of pussy-footing around reality. Feel free to disagree but as a white man im fed up with getting harassed every time I ride. It is NOT the place to be without your head on a swivel. SE - the Green line in particular - should be avoided. Same for U St/ Shaw, Howard & (holy fuck) Gallaudet.

BTW: I know some are going to wag their fingers (even here) at me specifically citing BLACK GHETTO TRASH as the problem - please fuck off & walk a mile in my shoes. I don't need a lecture about feefees & equality; it's the primary reason my wife & I are moving the fuck away. Until the overwhelming majority of Black people act like adults & hold themselves accountable I make NO DISTINCTION- the race/ demographic war is IN FULL EFFECT. Mayor of DC is a "house jogger" who is flaming the ghetto into retaliation & they damn well know it. If you *are* Black & a pede in DC, guess what? I NEVER SEE YOU. Real Black Americans: STAND UP & be responsible; I have NOTHING to apologize for and everything to lose by trusting anyone that treats me like a nameless "oppressor" since I live this shit EVERY DAY NOW.

(Yes, my punctuation is inspired by Wes Watson)
